About the Food Bank Leadership Institute

The Global FoodBanking Network (GFN) is delighted to welcome you to London for the 13th annual Food Bank Leadership Institute (FBLI). This is the first FBLI to be held outside the USA and is the largest ever – you are joining 150 food bank leaders from over 50 countries this week.

FBLI is the must-attend event for those advancing the food banking model to alleviate hunger and reduce food waste. FBLI attracts not only food bankers, but corporate partners and thought leaders from across the globe to discuss the unique challenges facing the sector as they work to meet the needs of food insecure populations, while reducing food waste globally.

About The Global FoodBanking Network

Founded in 2006, The Global FoodBanking Network (GFN) launches, certifies and strengthens food banks around the world to reduce hunger and food waste. GFN works with businesses, governments and NGOs to find socially responsible and economically effective ways to utilize resources – food, funds, technical expertise and volunteers – to create sustainable food banks. Today, the GFN network includes more than 800 food banks in 30 countries serving more than 9 million people in need.

About European Food Banks Federation

The European Food Banks Federation (FEBA) is a European non-profit organization that works in collaboration with 24 members and 4 associate members in European countries. For 33 years, FEBA's mission has consisted of representing its membership at European and international level; supporting and strengthening food banks in Europe by providing training, sharing knowledge and best practice, and developing partnerships; and fostering the creation of new food banks.

FEBA brings together 388 food banks and branches which are committed to fight against food waste and to feed the most deprived. In 2017, our members redistributed 756,000 tons of food to 8.1 million people through 44,700 charitable organizations thanks to the professionalism of 23,500 co-workers (88% volunteers).

Global Food Bank Innovation Award

The GFN Global Food Bank Innovation Award, made possible by H-E-B recognizes and celebrates innovative programs that food banks have conducted to increase their impact in the communities they serve. Please remember to vote for your favorite of the 8 finalists.

The voting is online. To cast your vote, simply follow the link in the e-mail you received from SurveyMonkey with the subject line, "GFN Global Food Bank Innovation Award". If you did not receive an e-mail with the link, please contact dmillar@foodbanking.org

A summary of all the projects that were submitted can be found here: <https://foodbanking.box.com/v/2019FoodBankInnovationAward>

GFN is grateful to H-E-B for sponsoring this award, and for their long-term support of food banking.

GFN e-Learning

GFN e-Learning extends the benefits of FBLI by offering on-demand training opportunities year-round for food bank staff at all levels. This free resource gives food banks a convenient and easily accessible avenue to accelerate their operations in a sustainable way. GFN Communities of Practice are also accessed via the GFN e-Learning platform.

HOW MUCH FOOD IS WASTED EVERY YEAR?

of food produced in the world for human consumption is either lost or wasted

This amounts to approximately

\$1 trillion

worth of waste

Fruits and vegetables have the highest wastage rates

Average annual waste per consumer

EUROPE & US
95-115 kg

AFRICA & ASIA
6-11 kg

Food banks globally prevent nearly **2.96 million cubic yards of edible surplus food** and distribute to hungry people

If **25%** of the food currently lost or wasted globally could be saved, it would be enough to feed **870 million** hungry people in the world

- The food currently wasted in **Latin America** could feed **300 million** people.
- The food currently wasted in **Europe** could feed **200 million** people.
- The food currently wasted in **Africa** could feed **300 million** people.
